

First before I say anything else I must thank the Gallais family for the warm welcome we received, the lovely cake and the beautiful castle itself. Even the animals, Babou + the cat, came to say hello!

You couldn't ask for anything else in the tower there is everything you need for a wonderful stay.

We were a little worried to what it was going to be like here, after having our previous 4 holidays ruined by various disasters, but we need not have worried, this place itself has more than made up for all of them!

This being our Honeymoon, having got married on the 6th March has been welcome relief from the stresses of weddings, although the roadsigns in France leave a lot to be desired! All in all though, we have had a wonderful time,

I thoroughly recommend the Mont Saint Michel for a fantastic day out, it takes a while to get there but is definitely worth it, the little streets are like something from Harry Potter with all the tiny shops!

My view of France has certainly changed this week and next time we come here whether to stay or even to live I will try and brush up on my French a bit!

All our thanks to Sophie, Damien, Anouk, Colin Babou & the cat for a lovely Honeymoon and maybe we will see them again,

Best Wishes Nick & Ellie Jones!
